Thank you for purchasing your Joomla51 template. The following tutorial will guide you in installing and setting up your template.

Before Installing your Joomla51 Template

Before installing your Joomla51 template you will need to install the latest version of the Joomla 1.5 content management system. Joomla 1.5 is available with most auto-installers such as Fantastico & Softaculous as well as directly from the <http://www.joomla.org> web site.

Installing your Joomla51 Template

1. Log in to your Joomla 1.5 administration area (www.yoursite.com/administrator)
2. Navigate to **Extensions-> Install / Uninstall**
3. Select the browse button and choose the **j51_[TemplateName.zip]** found in Joomla 1.5 directory
4. Click **Upload file & install** to install the template to your Joomla installation.
5. To set the template as the default, navigate to your **Template Manager** (Extensions -> Template Manager).
6. Now select your Joomla51 template and click **Default**
7. Your Joomla51 template will now be set as the default template

Adding your Site Title & Slogan (Text)

1. Navigate to **Extensions -> Template Manager**
2. Select your Joomla51 template and click Edit
3. Under **Parameters** select **Text** from the **Logo Type** dropdown menu
4. Add your site title to the **Logo Text** field
5. If desired add your slogan to the **Slogan** field
6. Click save to apply your changes

Parameters

The parameter file 'templates/j51_morpheus/params.ini' is writable

Logo type: **Text**
Logo text: Your Website Name
Slogan: Your Website Slogan

Note: By setting your **Logo type** to **Image**, the image located at **..templates/j51_morpheus/images/logo.png** will be placed in the logo position

Footer HTML: Joomla Templates

Joomla! is Free Software released under the GNU/GPL License.

Adding your Site Title/Logo (Image)

1. To create your logo image I would suggest using the blank logo.png supplied with the template. This will your logo will have the correct file type and dimensions for the logo position
2. Navigate to **Extensions -> Template Manager**
3. Select your Joomla51 template and click Edit
4. Under **Parameters** select **Image** from the **Logo Type** dropdown menu and click Save.
5. Open your FTP client and upload your customized logo.png to `../templates/j51_[template]/images/logo.png` replacing the original.

Setting Up Your Horizontal Dropdown Menu

The Moomenu gives your dropdown menus a smooth and fluid animated effect

1. Navigate to **Extensions -> Module Manager** and select your menu module.
2. Set up your module as below

The screenshot shows the Joomla! 1.5.20 Module Manager interface. The top navigation bar includes 'Site', 'Menus', 'Content', 'Components', 'Extensions', 'Tools', and 'Help'. The 'Extensions' tab is active, showing a list of modules. The 'mod_mainmenu' module is selected, and its configuration page is displayed. The page is divided into two main sections: 'Details' and 'Parameters'.

Details:

- Module Type: **mod_mainmenu**
- Title: [Text input field]
- Show Title: ☒ No ☐ Yes
- Enabled: ☐ No ☒ Yes
- Position: **hormav**
- Order: **0-Top Menu**
- Access Level: **Public**
- ID: **29**
- Description: **Displays a Menu.**

Menu Assignment:

- Menus: ☒ All ☐ None ☐ Select Menu Item(s) from the List
- Menu Selection: **Example Pages** (includes: Section Blog, Section Table, Category Blog, Category Table, Extensions, Content Layouts, Example Pages, mainmenu, Home, Joomla! Overview, What's New in 1.5?, Joomla! License, FAQ)

 - Module Class Suffix: [Text input field]
 - Maximum Menu Depth: **10**
- Other Parameters:** [Collapsible section]

Changing Your Template Colour Style

1. Navigate to **Extensions -> Template Manager**
2. Select your Joomla51 template and click **Edit**
3. Select the style of your choice from the **Template Style** dropdown
4. **Click Save**

Setting Up Your NivoSlide Image Slideshow

1. Navigate to **Extensions -> Extensions Manager**
2. Click Browse and select the **mod_nivoslide15.zip** from the Joomla 1.5 folder of your template package
3. Once installed navigate to Extensions -> Module Manager
4. Select the **Nivo-Szaki Slider** and click **Edit**. (If the module isn't present click 'New' and select Nivo-Szaki Slider from the list.)
5. For the most part the slideshow is preconfigured for your template. For our template demo we had our slideshow setup as follows..
6. Ensure images uploaded to your 'Slideshow Directory' are all of the same size. Your slideshow height will automatically adjust to that of your images.
