

# MA BAGSTORE MAGENTO PACKAGE

## Installation Guide

Thanks for purchasing this theme. These instructions will get you up and running in Magento quickly.

### **I. MA Bagstore Quickstart package:**

This installation guide only applies for new installation.

Setup Instructions:

-----

#### **Step 1:**

Create new database and import database sample ( **ma\_bagstore.sql** or **ma\_bagstore.sql.gz**) in database folder.

#### **Step 2:**

Extract and Upload the whole Quickstart package to your server

#### **Step 3:**

Open browser and navigate to your site (where the quickstart uploaded) to load default Magento installer with the database you just created and import database sample.

#### **Step 4:**

Step by step to follow the instructions

#### **Step 5: Finish installer**

(Important note ( at step 3 of installation - Configuration page) )

### **II. MA Bagstore Theme 1.6.1.0**

for Magento 1.4.1.1, 1.4.2.x, 1.5.x.x, 1.6

Setup Instructions:

-----

[www.plazathemes.com](http://www.plazathemes.com) – [support@plazathemes.com](mailto:support@plazathemes.com)

### Step 1:

Please unzip package and upload the folder from the theme package to the root directory of your magento software using an FTP client.

### Step 2:

Please go to Magento Admin >> System >> Configuration >> Design, write **"ma\_bagstore"** in Themes/Default input box and click "Save Config" button.

#### Design

Package		
Themes		
Translations	<input type="text"/>	[STORE VIEW]
Templates	<input type="text"/>	[STORE VIEW]
	<input type="button" value="Add Exception"/>	[STORE VIEW]
	▲ Match expressions in the same order as displayed in the configuration.	
Skin (Images / CSS)	<input type="text"/>	[STORE VIEW]
	<input type="button" value="Add Exception"/>	[STORE VIEW]
Layout	<input type="text"/>	[STORE VIEW]
	<input type="button" value="Add Exception"/>	[STORE VIEW]
Default	<input type="text" value="ma_bagstore"/>	[STORE VIEW]
	<input type="button" value="Add Exception"/>	[STORE VIEW]

### Step 3:

Clear the store cache under Magento Admin >> System >> Cache Management and all cookies for your store domain. It might be necessary in case something goes wrong.

### Step 4:

Create CMS pages and CMS static blocks in Magento backend. Copy/paste from source files inside in content folder:

/content/CMS Page/

[www.plazathemes.com](http://www.plazathemes.com) – [support@plazathemes.com](mailto:support@plazathemes.com)

/content/Static Block/

### **III. Extensions Configuration**

Please unzip package and upload the folder extensions (ma\_bagstore\_extensions.zip file ) from the theme package to the root directory of your magento software using an FTP client.

You go to admin => System => Configuration => Select module you need config in the MAGENTOTHEM tab in left side bar.

Configuration extensions like file inside "extensions configuration" folder.

All done!

Regards,

Plazathemes
